MEMORANDUM FOR: Deputy Assistant Director for Collection
Office of Scientific Intelligence

SUBJECT : Training Handbook for Nuclear Warfare

REFERENCE : Your memo, same subject, 29 December 1958

1. Reference was forwarded to WE Division for comment since the project originated with them.

2. Comment received is to the effect that your proposed outline of content being more comprehensive than that originally suggested contains not only material suggested by them for inclusion in the handbook but in addition, material of value to other elements of the Agency.

3. It is requested that compilation of material proposed in your outline proceed with the objective of producing a handbook whose classification would not prevent its passage to foreign Clandestine Services or to foreign nationals with whom the Agency has a legitimate basis for dealing.
